WORLDQUANT™

Quantitative Research Consultant

WorldQuant is a private institutional investment management complex consisting of an international team of researchers and technologists who constantly work toward even greater quantification and automation in the development of its processes.

Scope of Engagement (include, but not limited to the following)**:**
We are seeking engineering, science, mathematics and finance majors for part-time research consultant position, involving the creation of computer-based models that seeks to predict the movements of worldwide financial markets. Candidates need not have prior knowledge of financial markets, but must have a strong interest in learning about stock markets and financial markets. Upon joining us, we will provide a series of quantitative finance training and seminars to offer you a chance to learn the fundamentals of quantitative finance and stock price movement prediction.

We offer outstanding learning and earning opportunities, which include:

- Performance based compensation, for successfully contracted consultant
- Training classes / seminars about quantitative finance research and modeling
- Access to our web-based stock simulation system that you can use to develop your quantitative financial models
- Rare opportunity for students in engineering and science to break into the financial industry

All interested candidates are invited to attend our company presentations:

Date: Monday, October 27

Time: 5-7pm

Location: Multimedia Room (B115), Hana Square, Science Campus, Korea University

Date: Tuesday, October 28
